Subject Index

Volume 26

Aboriginals, nutrition of children, 95
Acetoacetyl-CoA deacylase, role of subcellular lo calization of in acetoacetate synthesis, 814
Adenosine monophosphate, cyclic, in digestive physiology, 876
Adrenal cortical hormones, effects on carbohydrate, protein, and fat metabolism, 113
Age, effect on plasma tocopherol, 136
Aged
  feeding of, 1150
  integrating nutrition into health care, 1106
  longitudinal study, 1144
  meal delivery systems, 1154
  nutrition, 1159
    HUD's role in interagency action on, 1124
    legislative programs, 1127
    symposium on, 1091
  nutrition and health, 1080, 1111
  nutrition programs, 1156
    staffing of, 1156
  nutrition requirements, 1096
  systematic training in a rural program, 1138
  urban model of nutrition and social service program, 1098
Aging
  long term effects of maternal and infant feeding, 1120
  response of hepatic glycolytic enzymes to dietary sugars, 608
Albumin, effect of alcohol on synthesis by liver, 1191
Alcohol
  albumin synthesis by liver, 1191
  blood clearance rates, 161
  intensification of hypertriglyceridemia, 798
  nutrition and the liver, 1163
  pancreatic inflammation and insufficiency, 347
Alcoholism
  effect of triglycerides on liver fatty acid composition, 738
  riboflavin deficiency, 858
Aldosterone blockade during fasting and refeeding, 397
Alfalfa, natural hypocholesteremic agent, 133
Amino acids
  blood ammonia concentration in liver disease, 916
  free, patterns in serum of pygmies, 429
  nonessential to essential ratio in marasmus, 484
  plasma, after meal lacking an essential amino acid, 1175
  plasma and red blood cell, of children with protein-calorie malnutrition, 387
  requirements of man, 702
  serum, differing dietary amino acids, 722
Aminotransferase activities in erythrocytes of women taking oral contraceptives and effect of vitamin B_6 supplementation, 48
Ammonia
  blood concentration in liver disease, 916
  content of food, 487
Amylase in parotid saliva after load doses of dietary carbohydrates, 17
Anemia
  childhood, vitamin B_{12}, folic acid, and iron, 640
  clinical importance, 958
  nutritional, in pregnancy, 591
  sex-linked, cobalt absorption, 435
  sickle cell, dietary precursors of cyanate, 1261
Anthropometry, arm, in nutritional assessment, 912
Antibiotics, intestinal transport of iron, 104
Arm circumference as index of malnutrition, 226
Ascorbic acid
  influence of oral contraceptives on concentrations of, 191
  status of drug addict, 1042

Beer drinker's cardiomyopathy, 403
Behavior
  effects of riboflavin restriction, 150
  of infant in causation of nutritional marasmus, 264
Biochemistry
  effect of high protein supplement, 1046
  protein-calorie malnutrition in monkeys, 1295
Bladder stone disease, 1207
Blood: *see also* Plasma, Serum
  clearance of alcohol and tolbutamide, 161
Body composition changes during weight loss, 144
Body weight
  effect of cessation of smoking after myocardial infarction on, 385
  response to low carbohydrate, high fat diet in normal and obese subjects, 197
Bone density, 687
Bread
  absorption of fortification iron, 861
  iron enrichment, 131

---

* Abstracts submitted to the 13th Annual Meeting of the ASCN were published on pages 459 through 471 of the April 1973 issue of AJCN. Authors and subjects are not indexed here.

† Authors and subjects of abstracts submitted to the 1st Fall Meeting of the AIN and the ASCN are also not included in this index. The abstracts were published in the July 1973 issue of AJCN, pages xvii through xxix; the author index for these abstracts is on pages xxx and xxxi.

The American Journal of Clinical Nutrition 26: DECEMBER 1973, pp. 1375–1381. Printed in U.S.A.

Breast feeding, 556
food intake and weight gain, 631
Burn injury, essential fatty acid deficiency after, 1331

Calcium
effect of magnesium and protein level on retention and excretion of, 519
metabolism in pancreatic disease, 352
Calcium deprivation, Bedouin osteomalacia, 910
Calorie supplementation, effect on growth of undernourished children, 563
Carbohydrates
amylase and protein in parotid saliva after load doses of dietary, 17
drugs, malnutrition, and absorption of, 121
effects of adrenal cortical hormones on metabolism of, 113
fiber-depleted starchy, tropical malabsorption, 477
in human neutrophilic phagocytosis, 1180
intensification of hypertriglyceridemia, 798
response of body weight to diet low in, 197
triglyceride clearance during diet high in, 241
Carbon monoxide, vitamin B_6 and multiple sclerosis, 890
Cardiomyopathy, beer drinker's, 403
Carotene levels in selected population, 992
Casein-lactalbumin utilization, 503
Catecholamines, excretion in kwashiorkor, 205
Children
American
body measurements, 1265
height and weight, 567, 1031
skinfold thickness, 1030
anemic, vitamin B_{12}, folic acid, and iron, 640
chronically malnourished, effect of protein supplementation on hair, 479
creatinine excretion and dietary nitrogen, 690
effects of monosodium glutamate, 803
food intake and weight gain in breast-fed, 631
from poor families, growth, 926
growth and nitrogen balance in those fed cereal proteins, 586
instant sweetened corn-soy-milk blend, 491
metabolic responses to magnesium and protein, 510, 519
nitrogen retention on a vegetable protein mixture supplement, 415
nutrition and development, 766
nutritional status, 497
plasma and red blood cell amino acids in protein-calorie malnutrition, 387
plasma and urine ribonuclease as measure of nutritional status, 793
protein intake, 1287
serum vitamin E levels in tropical sprue, 1045
testing of Nutriene V in malnourished, 1024
undernourished, effect of calorie supplementation on growth, 563
vitamin A status, 1229
vitamin B_{12} absorption in protein-calorie malnutrition, 595
Cholesterol
dietary saturated fat and serum concentration of, 524
plasma, effect on plasma tocopherol, 136
role of small intestine in metabolism of, 647
serum, coronary heart disease mortality, 616
Choline, ethanol and metabolism of in liver, 1234
Choline deficiency, relationship of hepatic trace metals to intestinal transport, 409
Chorionic gonadotrophin, human, effect on weight loss, hunger, and feeling of well-being, 211
Chromium, effects of supplementation with on growth in marasmic protein-calorie malnutrition, 988
Cirrhosis, effect of triglycerides on liver fatty acid composition, 738
Cobalt
absorption in sex-linked anemic mice, 435
beer drinker's cardiomyopathy, 403
Colostrum, lyophilized bovine, in treatment of prolonged infantile diarrhea, 383
Comments in Biochemistry, 55, 758, 876, 1006, 1073, 1242
Comments in Gastroenterology, 647
Contraceptives, oral
erythrocyte aminotransferase activities in women using, 48
influence on ascorbic acid concentrations, 191
Copper
concentration in hair, 1212
ingestion of and hypercholesterolemia, 1060
interaction with molybdenum in iron-deficiency and iron-storage diseases, 657
Copper balance, 744
Coronary artery disease precursors, 1133
Creatinine excretion
diurnal variations, 1069
in preadolescent girls, 690
Crystalluria, hydroxyproline and orthophosphate, 1207
Cyanate, dietary precursors of in sickle cell anemia, 1261

Department of Agriculture, programs and policies, 1153
Department of Housing and Urban Development, role in interagency action in nutrition and aging, 1124
Development
nutrition, 766
physical and neuromotor, maternal pyridoxine levels, 420
Diabetes mellitus, effect on plasma tocopherol, 136
Diarrhea
prolonged infantile, lyophilized bovine colostrum in treatment of, 383
vitamin B_{12} absorption in protein-calorie malnutrition, 595
Diet
chemically defined, 785
coronary heart disease, 53
coronary heart disease and stroke, 177
folate content in during pregnancy, 707
high glucose and high sucrose, effect on glucose tolerance, 600
high in carbohydrates or fats, triglyceride clearance during, 241

low carbohydrate, high fat, response of body weight to in normal and obese subjects, 197
milk- and wheat-based, utilization of nutrients in by lactose malabsorbers, 939
nitrogen retention, 1195
protein quality, 491
saturated fat in, and serum cholesterol concentration, 524
serum amino acids, 722
thiamin-deficient, beer drinker's cardiomyopathy, 403
Digestion
cyclic AMP in, 876
role of pancreatic enzymes, 311
Diurnal variations of hydroxyproline and creatinine excretion, 1069
Drug abuse, ascorbic acid status, 1042
Drugs
desirable, for nutrition and metabolism, 125
malnutrition and carbohydrate absorption, 121
relationships to nutrients, 103

Eating, sociology of in aged, 1108
Eating pattern, metabolic consequences, 823
Ecosystem, nutrition as one part of, 1157
Editorial, 131, 473
Education, nutrition, 678, 792
Elderly: *see* Aged
Electrolytes, secretion by pancreas, 326
Encephalopathy, lymphostatic, vitamins, 696
Endurance, nutrition, 1011
Energetics, exercise, after weight gain, 1284
Energy
lysine supplementation of wheat gluten, 965
utilization in lactose malabsorbers, 939
Energy balance, body composition changes during weight loss, 144
Energy intake, protein patterns and N balance, 1216
Enzymes, pancreatic, role in digestion, 311
Epidemiology, coronary heart disease and stroke, 177
Erythrocytes, aminotransferase activities in women using oral contraceptives and effect of vitamin B_6 supplementation, 48
Eskimos, sucrose, lactose, and glucose tolerance, 1185
Ethanol
choline metabolism in liver, 1234
distribution in gastrointestinal tract, 831
Exercise, energetics after weight gain, 1284

Fat
dietary saturated, serum cholesterol concentration, 524
effects of adrenal cortical hormones on metabolism of, 113
metabolism of radioactive-labeled emulsions in postoperative and posttraumatic period, 578
polyunsaturated, effect of long term ingestion of on plasma tocopherol, 136
response of body weight to diet low in carbohydrates and high in, 197
triglyceride clearance during diet rich in, 241
Fat therapy, intravenous, in essential fatty acid deficiency after thermal injury, 1331
Fatty acids
deficiency after thermal injury, 1331
liver, effect of triglycerides, 738
Feeding frequency, metabolic consequences, 823
Fish protein concentrate utilization, 503
Flour, iron enrichment, 131
Folate, intestinal absorption, 23
Folate deficiency of intestinal mucosa, 728
Folic acid
childhood anemia, 640
content of diets in pregnancy, 707
deficiency, possible causes, 77
Food
ammonia content, 487
commerciogenic nutritious, limitations, 1015
iron absorption in man, 1311
sociology of in aged, 1108
Food intake
and weight gain in breast-fed infants, 631
N balance, 1216
regulation of, 271

Gastrointestinal tract
distribution of ethanol, 831
upper, radiologic findings in hyperlipoproteinemia, 1269
Glucose
effect of diet high in on glucose tolerance, 600
tolerance in Eskimos, 1185
Gluten, wheat, lysine supplementation, 965
Goiter, endemic, nutritional status, growth, and skeletal development, 1360
Growth
children from poor families, 926
effect of calorie supplementation on in undernourished children, 563
effects of chromium supplementation on, in marasmic protein-calorie malnutrition, 988
in infants fed cereal proteins, 586
in subjects with endemic goiter, 1360
international and local standards, 897
skeletal, malnutrition, 620
Gut: *see also* Gastrointestinal tract, Intestine
ecology of flora of, 1042
microbial contamination, 1170

Hair
effect of protein supplementation in chronically malnourished children, 479
increase in copper concentration with increasing distance from scalp, 1212

CONTENTS

VOLUME 26

Number 1, January 1973

Letters to the editor

1 The vascular effect of monosodium glutamate. *S. R. Greenberg*
1 Small intestine in pellagra. *C. H. Halsted*

Original communications

3 Effect of maternal malnutrition during pregnancy and lactation on hepatic protein metabolism in the infant rat: biochemical and ultrastructural studies. *C. O. Enwonwu and V. Glover*
17 Amylase and protein in parotid saliva after load doses of different dietary carbohydrates. *K. M. Behall, J. L. Kelsay, J. M. Holden and W. M. Clark*
23 Intestinal absorption using vibration-obtained individual small bowel epithelial cells of the rat: folate absorption. *S. Momtazi and V. Herbert*
30 Protein requirements of young cebus monkeys (*Cebus albifrons* and *apella*). *K. W. Samonds and D. M. Hegsted*
41 Transfer ribonucleic acid of vitamin A-deficient rats. *G. P. Tryfiates, R. F. Krause and J. K. Shuler*
48 Erythrocyte aminotransferase activities in women using oral contraceptives and the effect of vitamin B_6 supplementation. *D. P. Rose, R. Strong, J. Folkard and P. W. Adams*

Special article

53 Diet and coronary heart disease.

Comments in biochemistry

55 Phosphoenolpyruvate carboxykinase. II. Hormonal controls. *R. W. Hanson, A. J. Garber, L. Reshef and F. J. Ballard*

Perspectives in nutrition

64 The equations governing weight change in human beings. *V. W. Antonetti*
72 Use of inorganic sulfate sulfur/creatinine ratio in field studies. *W. K. Simmons*
77 The five possible causes of all nutrient deficiency: illustrated by deficiencies of vitamin B_{12} and folic acid. *V. Herbert*

International nutrition

87 Nutritional status and intestinal function among rural populations of the West Indies. III. Barrio Cabreto, Dominican Republic. *F. A. Klipstein, C. Rubio, S. Montas, J. T. Tomasini and R. G. Castillo*
95 The nutrition of Malaysian aboriginal children. *P. Robson, J. M. Bolton and A. E. Dugdale*

101 **Nutrition news**

Symposium

Drug–nutrient relationships. Guest editor W. W. Faloon
104 Introduction. *W. W. Faloon*
105 Effects of antibiotics and other agents on the intestinal transport of iron. *N. J. Greenberger*
113 Effects of adrenal cortical hormones on carbohydrate, protein, and fat metabolism. *A. Eisenstein*
121 Drugs, malnutrition, and carbohydrate absorption. *G. M. Gray*
125 Some drugs we would like to have in nutrition and metabolism. *L. G. Raisz*

Number 2, February 1973

Guest editorial

131 Iron enrichment of bread and flour. *G. A. Goldsmith*

Letters to the editor

133 Alfalfa: a natural hypocholesteremic agent. *P. R. Cheeke*
133 Ethics of experimentation. *G. V. Mann*
134 Reply to Dr. Mann. *W. J. Darby*

Original communications

136 Effect of long-term ingestion of polyunsaturated fat, age, plasma cholesterol, diabetes mellitus, and supplemental tocopherol upon plasma tocopherol. *J. S. Lewis, A. K. Pian, M. T. Baer, P. B. Acosta and G. A. Emerson*
144 Body composition changes during weight loss estimated from energy, nitrogen, sodium, and potassium balances. *M. H. Jourdan and R. B. Bradfield*
150 Restricted riboflavin: within-subject behavioral effects in humans. *R. T. Sterner and W. R. Price*
161 Correlation of alcohol and tolbutamide blood clearance rates with microsomal alcohol-metabolizing enzyme activity. *M. E. Kostelnik and F. L. Iber*
165 Hypertriglyceridemia in chronic nonnephrotic renal failure. *R. A. Gutman, A. Uy, R. J. Shalhoub, A. D. Wade, J. M. B. O'Connell and L. Recant*
173 Hydroxyproline excretion and nutritional status of children. *N. B. Cabacungan, C. W. Miles, R. P. Abernathy and S. J. Ritchey*
177 Epidemiology of coronary heart disease and stroke in Japanese men living in Japan, Hawaii, and California: methodology for comparison of diet. *J. L. Tillotson, H. Kato, M. Z. Nichaman, D. C. Miller, M. L. Gay, K. G. Johnson and G. G. Rhoads*
185 Lymphedema and vitamins. *E. Földi-Börcsök and M. Földi*
191 Influence of oral contraceptives on ascorbic acid concentrations in healthy, sexually mature women. *V. J. McLeroy and H. E. Schendel*
197 Response of body weight to a low carbohydrate, high fat diet in normal and obese subjects. *H. Kasper, H. Thiel and M. Ehl*
205 Excretion of catecholamines and catecholamine metabolites in kwashiorkor. *R. D. Hoeldtke and R. J. Wurtman*
211 Effect of human chorionic gonadotrophin on weight loss, hunger, and feeling of well-being. *W. L. Asher and H. W. Harper*

Perspectives in nutrition

219 Dietary plant sterols: current status in human and animal sterol metabolism. *M. T. R. Subbiah*

Methods in nutrition

226 Evaluation of arm circumference measurement for determining nutrition status of children and its use in an acute epidemic of malnutrition: Owerri, Nigeria, following the Nigerian Civil War. *M. S. Loewenstein and J. F. Phillips*

234 **Nutrition news**

Number 3, March 1973

Letters to the editor

237 An enzymatic measurement of riboflavin status in man. *M. S. Bamji*

Brief communications

238 Pregnancy and lactose intolerance. *D. M. Paige, T. M. Bayless and G. G. Graham*

Original communications

241 Triglyceride clearance during diets rich in carbohydrate or fats. *P. J. Nestel and P. J. Barter*

246 Assessment of biological value of a new corn–soy–wheat noodle through recuperation of Brazilian malnourished children. *I. Beghin, A. Vieira de Méllo, T. Costa, E. Monteiro, Ma. A. Lucena and R. Varela*

259 Nutrition, metabolism, and blood lipids in humans with type II_A hyperlipoproteinemia. *E. R. Briones, P. J. Palumbo, B. A. Kottke, R. D. Ellefson and R. A. Nelson*

264 Behavior of infant in causation of nutritional marasmus. *E. Pollitt*

Perspectives in nutrition

271 Newer concepts in the regulation of food intake. *S. Lepkovsky*

286 Erratum

287 Program, Thirteenth Annual Meeting, ASCN

Symposium

The exocrine pancreas in human nutrition. Guest editor *M. H. Floch*

290 Introduction. *M. H. Floch*

291 The neurohumoral control of pancreatic exocrine secretion. *F. P. Brooks*

311 The role of pancreatic enzymes in digestion. *I. T. Beck*

326 The secretion of electrolytes by the pancreas. *T. Scratcherd and R. M. Case*

340 The role of pancreatic exocrine secretions in the absorption of vitamin B_{12} and iron. *L. Bernstein and V. Herbert*

347 Alcohol, the pancreas, pancreatic inflammation, and pancreatic insufficiency. *R. Baum and F. L. Iber*

352 Calcium metabolism in pancreatic disease. *A. D'Souza and M. H. Floch*

362 Magnesium and the pancreas. *T. Hersh and D. A. Siddiqui*

367 Nutritional aspects of chronic pancreatitis. *H. L. Taubin and H. M. Spiro*
374 Pancreas in primary malnutrition disorders. *C. S. Pitchumoni*

Number 4, April 1973

Letters to the editor

381 Which statistics? *A. S. Truswell*
381 Reply to Dr. Truswell. *M. E. Tumbleson and D. P. Hutcheson*
382 Effect of excessive vitamins C and E on vitamin A status. *J. G. Bieri*
383 Lyophilized bovine colostrum (LBC) in the treatment of prolonged infantile diarrhea. *L. B. Fernandez, J. Averbach, M. I. Ledesma de Paolo, M. E. Delledone and E. Gonzalez*

Brief communications

385 Effect of cessation of smoking on body weight after myocardial infarction. *N. Hickey and R. Mulcahy*

Original communications

387 Plasma and red blood cell amino acids of Egyptian children suffering from protein-calorie malnutrition. *M. M. Mikhail, V. N. Patwardhan and C. I. Waslien*
393 Comparison of whole milk and skim milk with an aqueous lactose solution in lactose tolerance testing. *J. Leichter*
397 Effect of aldosterone blockade during fasting and refeeding. *P. R. Boulter, R. F. Spark and R. A. Arky*
403 Effect of cobalt, beer, and thiamin-deficient diets in pigs. *R. E. Burch, R. V. Williams and J. F. Sullivan*
409 Relationship of hepatic trace metals of intestinal transport in choline-deficient rats. *R. C. Keefer, D. J. Tuma and A. J. Barak*
415 Nitrogen retention in preschool children on a vegetable protein mixture supplement. *R. P. Devadas, U. Chandrasekhar and M. Lalitha*
420 Graded levels of pyridoxine in the rat diet during gestation and the physical and neuromotor development of offspring. *M. G. Alton-Mackey and B. L. Walker*
429 Modifications of serum-free amino acid patterns of Babinga adult pygmies after short-term feeding of a balanced diet. *A. M. Paolucci, M. A. Spadoni and V. Pennetti*
435 Cobalt absorption in sex-linked anemic mice. *P. P. Toskes, G. W. Smith and M. E. Conrad*

Perspectives in nutrition

438 Who eats for health? *R. J. Wolff*
446 Evaluation of small-scale nutrition programs. *A. K. Neumann, C. G. Neumann and A. E. Ifekwunigwe*

453 **Nutrition news**

457 Program, Thirteenth Annual Meeting, ASCN
459 Abstracts

Number 5, May 1973

Guest editorial

473 Evaluation of nutritional management of the low birth weight newborn. *H. Ghadimi, K. Arulanatham and M. Rathi*

Letters to the editor

477 Tropical malabsorption and fiber-depleted starchy carbohydrates. *H. Trowell*

Brief communications

479 Effect of protein supplementation on the hair of chronically malnourished New Guinean schoolchildren. *L. A. Malcolm, E. Balasubramanian and G. Edwards*

482 Hepatic and circulating (non-heme) iron during recovery from malnutrition in the rat. *J. Araya and M. A. Tagle*

484 Plasma nonessential to essential amino acid ratio in marasmus. *P. Singh, S. C. Sood and A. S. Saini*

Original communications

487 Ammonia content of food. *D. Rudman, R. B. Smith III, A. A. Salam, W. D. Warren, J. T. Galambos and J. Wenger*

491 Dietary protein quality in infants and children. IX. Instant sweetened corn–soy–milk blend. *G. G. Graham, J. M. Baertl, R. P. Placko and E. Morales*

497 Factor analysis of measures of nutritional status of preschool children. *H. A. Guthrie, G. M. Owen and G. M. Guthrie*

503 Comparative utilization of fish protein concentrate and casein–lactalbumin by college women. *R. E. Tucker, H. A. Dymsza, S. M. Constantinides and P. T. Brown*

510 Metabolic responses of adolescent boys to two levels of dietary magnesium and protein. I. Magnesium and nitrogen retention. *R. Schwartz, G. Walker, M. D. Linz and I. MacKellar*

519 Metabolic responses of adolescent boys to two levels of dietary magnesium and protein. II. Effect of magnesium and protein level on calcium balance. *R. Schwartz, N. A. Woodcock, J. D. Blakely and I. MacKellar*

Perspectives in nutrition

524 Saturated fat in the diet and serum cholesterol concentration: a critical examination of the literature. *R. Reiser*

556 Breast feeding in modern times. *R. E. Brown*

International nutrition

563 Effect of calorie supplementation on growth of undernourished children. *C. Gopalan, M. C. Swaminathan, V. K. Krishna Kumari, D. Hanumantha Rao and K. Vijayaraghavan*

PHS publications

567 Height and weight of United States children: second report

569 **Nutrition news**

Number 6, June 1973

Brief communications

571 Nonspecific protective substances of serum in protein deficiency: an in vitro experimental study. *K. S. Ratnakar, V. Emanvel and U. Ramachandraiah*
575 Acute hypervitaminosis A in an adult. *K. I. Furman*
578 Metabolism of radioactive-labeled fat emulsions in the postoperative and post-traumatic period. *J. Eckart, G. Tempel, A. Kaul, G. Witzke, P. Schürnbrand and H. Schaaf*
583 Selenium in mature human milk. *D. M. Hadjimarkos and T. R. Shearer*

Original communications

586 Growth and nitrogen balance in infants fed cereal proteins. *J. Knapp, L. A. Barness, L. L. Hill, R. Kaye, R. Blatner and J. M. Sloan*
591 Etiopathogenesis of nutritional anemia in pregnancy: a therapeutic approach. *R. N. Basu, S. K. Sood, K. Ramachandran, M. Mathur and V. Ramalingaswami*
595 Vitamin B_{12} absorption in protein-calorie malnourished children and during recovery: influence of protein depletion and of diarrhea. *J. Alvarado, W. Vargas, N. Diaz and F. E. Viteri*
600 Effect of high glucose and high sucrose diets on glucose tolerance of normal men. *J. W. Anderson, R. H. Herman and D. Zakim*
608 Effect of aging on the response of rat hepatic glycolytic enzyme activities to dietary sugars. *J. Espinoza and N. S. Rosensweig*
612 Parenteral magnesium load tests in postpartum Thai women. *J. L. Caddell, N. Ratananon and P. Trangratapit*
616 Changes in serum cholesterol and coronary heart disease mortality associated with changes in the postwar Japanese diet. *C.-P. Wen and S. N. Gershoff*
620 Malnutrition studies in *Macaca mulatta*. II. The effect on organ size and skeletal growth. *G. R. Kerr, H. A. Waisman, J. A. Allen, J. Wallace and G. Scheffler*
631 Food intake and rate of weight gain in two healthy breast-fed infants. *E. F. Wheeler*
640 Interrelationships of vitamin B_{12}, folic acid, and iron in anemia of infancy and childhood: effect of vitamin B_{12} and iron therapy on folate metabolism. *A. K. Saraya, V. P. Choudhry and O. P. Ghai*

Comments in gastroenterology

647 Role of the small intestine in cholesterol metabolism. *N. McIntyre and K. J. Isselbacher*

Perspectives in nutrition

657 Proposed role of copper–molybdenum interaction in iron-deficiency and iron-storage diseases. *M. S. Seelig*

International nutrition

673 Edible insects in three different ethnic groups of Papua and New Guinea. *V. B. Meyer-Rochow*

Reports of meetings

678 Conference on nutrition education.

682 **Nutrition news**

Number 7, July 1973

Letters to the editor

683 Status of monosodium glutamate revisited. *J. W. Olney*
686 Reply to Dr. Olney. *H. Ghadimi*
686 Photographic density versus bone density. *H. E. Meema*
687 Saccharides and triglycerides. *M. J. Halpern*
688 Reliability of the xylose tolerance test as an index of intestinal absorption. *Hla-Yee-Yee, M. Mya-Tu and Aung-Than-Batu*

Brief communications

690 Variability of creatinine excretion in preadolescent girls consuming a wide range of dietary nitrogen. *S. J. Ritchey, N. L. Derise, R. P. Abernathy and M. K. Korslund*
696 Lymphostatic encephalopathy and vitamins. *E. Földi-Börcsök and M. Földi*

Original communications

702 Nitrogen balances of adult human subjects fed combinations of wheat, beans, corn, milk, and rice. *H. E. Clark, J. L. Malzer, H. M. Onderka, J. M. Howe and W. H. Moon*
707 Folate content of diets in pregnancy: comparison of diets collected at home and diets prepared from dietary records. *L. F. Moscovitch and B. A. Cooper*
715 Effect of triiodothyronine on some metabolic responses of obese patients. *G. A. Bray, K. E. W. Melvin and I. J. Chopra*
722 Serum amino acids in young men consuming diets differing in level and pattern of amino acids. *L. A. Weller, S. Margen, D. H. Calloway and E. F. Meissner*
728 Folate deficiency of the intestinal mucosa. *F. A. Klipstein, S. D. Lipton and E. A. Schenk*
738 Effect of medium-chain triglycerides on liver fatty acid composition in alcoholics with or without cirrhosis. *J. R. Malagelada, W. G. Linscheer, U. M. T. Houtsmuller, A. J. Vergroesen, M. Shah and F. L. Iber*
744 Copper metabolism in young women fed two levels of copper and two protein sources. *L. C. Butler and J. M. Daniel*

Special article

750 The neglect of nutrition and its perils. *R. A. Peters*

Comments in biochemistry

758 Oxalate metabolism. I. *L. Hagler and R. H. Herman*

Perspectives in nutrition

766 Nutrition: its relationship to children's physical, mental, and emotional development. *H. P. Martin*
776 Time factors in obesity. *H. F. Sassoon*

Program, Fall Meeting, AIN-ASCN
Abstracts

Number 8, August 1973

Letters to the editor

785 Factors affecting studies with chemically defined diets. *M. Winitz*
789 Reply to Dr. Winitz. *H. R. Attebery, V. L. Sutter and S. M. Finegold*
790 Zinc as an unrecognized limiting nutrient. *H. H. Sandstead*
791 Reply to Dr. Sandstead. *R. P. Abernathy and S. J. Ritchey*
792 A medical course in human nutrition: additional comments. *S. Sherr*

Brief communications

793 Plasma and urine ribonuclease as a measure of nutritional status in children. *D. M. Sigulem, J. A. Brasel, E. G. Velasco, P. Rosso and M. Winick*
798 Intensification of hypertriglyceridemia by either alcohol or carbohydrate. *M. M. Fry, A. A. Spector, S. L. Connor and W. E. Connor*

Original communications

803 Effects of dietary supplementation of monosodium glutamate on infant monkeys, weanling rats, and suckling mice. *C.-P. Wen, K. C. Hayes and S. N. Gershoff*
814 Subcellular localization of acetoacetyl-CoA deacylase and its role in acetoacetate synthesis. *R. E. Burch and A. R. Wertheim*
823 Metabolic consequences of feeding frequency in man. *P. S. Wadhwa, Sr. E. A. Young, K. Schmidt, C. E. Elson and D. J. Pringle*
831 Distribution of ethanol in the human gastrointestinal tract. *C. H. Halsted, E. A. Robles and E. Mezey*
835 Influence of a viral enteric infection on the aminogram and pathology of protein-calorie malnutrition in the pig. *T. Isoun, C. K. Whitehair and W. G. Bergen*
845 Follow-up of obese patients: 14 years after a successful reducing diet. *E. Sohar and E. Sneh*
849 Effectiveness of nutrition aides in a migrant population. *H. P. Chase, L. B. Larson, D. M. Massoth, D. L. Martin and M. M. Niernberg*
858 Riboflavin deficiency in complicated chronic alcoholism. *W. S. Rosenthal, N. F. Adham, R. Lopez and J. M. Cooperman*
861 Absorption of fortification iron in bread. *J. D. Cook, V. Minnich, C. V. Moore, A. Rasmussen, W. B. Bradley and C. A. Finch*
873 Defective propionate oxidation in leukocytes of vitamin B_{12}-deficient pigs: in vitro correction. *M. R. Seashore, E. Hsia, K. Scully, J. L. Durant and L. E. Rosenberg*

Comments in biochemistry

876 Cyclic AMP in digestive physiology. *R. A. Levine*
882 Oxalate metabolism. II. *L. Hagler and R. H. Herman*

Perspectives in nutrition

890 Carbon monoxide, vitamin B_6, and multiple sclerosis: a theory of interrelationship. *D. A. Mitchell and E. K. Schandl*

International nutrition
